

W Hotel

Working with the City of Miami Beach, NBWW was able to gain permission to remove an aging, somewhat run-down hotel to construct the W Hotel in Miami Beach's Historic District. Its location adjacent to a city park provided an abundance of views for its 400 condo-hotel units.

Working with Yabu Pushelberg, the world renowned interior design firm, and Costas Kondylis of New York, the team has created a state of the art, avant garde guest experience.
